World's Leading Memory Brand
Founded in May, 2001 by Chairman and CEO Mr. Simon Chen, ADATA Technology Co., Ltd. is a world leading provider of memory modules and flash memory products. Building on its technical expertise, state-of-the-art manufacturing facilities, and premium customer service, ADATA grew rapidly to become a Taiwan Top 20 global brand within a matter of years.

Commitment to Quality and Sustainability
ADATA’s slogan, Love, Life, Dreams, represents ADATA’s brand essence towards our customers around the world. It is a reminder that our products are not ends in themselves, but act as helping hands to our customers in their pursuit of their love, their life, and their dreams. ADATA is a witness to this human pursuit, as we ourselves chase these treasured ideas in our work and business.

Premium Customer Service
With numerous locations around the globe, ADATA provides comprehensive and timely after-sale service support to our customers worldwide. ADATA also offers several free value-added software options to provide an enhanced computing experience.

Limited lifetime warranty
ADATA DRAM Modules are backed by the company’s rigorous testing standards, as well as a lifetime warranty (where applicable)

Innovative Design

TCT
XPG V2 DRAM modules are built with superior cooling design. Thermal Conductive Technology (TCT), which provides greater cooling environment for both DRAM IC and PCB to improve the performance and greater stability.

2OZ
XPG V2 DRAM modules contain double the standard amount of copper in the PCB (printed circuit board) which improves the energy efficiency, lowers the system temperature, and enhances system stability.
